REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Jan. 27.—The changes as a result of to-day's trading were rather mixed, with gains predominating. The market opened with hesitancy, but this was speedily dissipated by an influx of buying orders, and the market started up under the influence of strength in the low priced specialities and standard stocks. London was a free seller; on balance the sales amounted to 30,000 shares, which encouraged the room traders to put out large short lines to check the rise. Commission houses had a large volume of buying orders well distributed through the list, which forced the bears to take back stocks after only a slight relapse in the market's strength.

Prices were forced up under the leadership of the Flower stocks, including Rock Island, People's Gas and Brooklyn Transit. The low priced stocks were then taken in hand. Tennessee Coal and Iron moved up 3¼, American Spirits preferred 2; Wheeling and Lake Erie preferred 4½; first preferred when issued 4; Pacific Mail 2%, and Indianapolis and Louisville preferred 3.

Among the specialities there were advances of 2% in Rubber and 2 in Sugar, while Metropolitan moved up 3¼. American Spirits preferred spirits in the Granger's except Northwest. The largest rise in this group was that of Rock Island, 1%.

The Coalers, Morgan stocks, and C., C., and C. and St. Louis were quiet and Long Island jumped 5¼, and Norfolk and Western preferred on large transactions advanced 1½.

The move in the latter was attributed to talk of an increase in the dividend rate. Lake Erie and Western and Chicago Great Western preferred rose in the neighborhood of 2 points. The news accompanying the advanced Included the faverable report of the Senate Commerce Committee on the Steamship Subsidy bill, which benefitted Pacific Mail; an explanation that the new beet sugar company would not invade the American Sugar Refining Company's territory, and a number of favorable traffle statements, including those of Northern Pacific and Southern Railway, Reading and Washash December net changes, however, were

The Cotton Markets.

NEW YORK COTTON MARKET.

New York, Jan. 27.—Speculation in cotton continued to show unabated force; indeed the volume of to-day's business was even greater than that of yesterday. Only selling for the purpose of securing profits prevented a more marked advance than that actually recorded, while at the utmost strength of the market was a matter of 10 roints.

The opening call was characterized by intense excitement and great activity.

strength of the market was a matter of 10 points.

The opening call was characterized by intense excitement and great activity, caused by strong cables and bullish pointers from all directions, with prices 2 to 7 points higher. Following the call there was a further advance of 2 m3 points, with occasional reactionary intervals under liquidation of long contracts. As a rule orders were for buying cotton, whether from Liverpool, Wall street, New Orleans, Fall River or other leading points, Private cables said that the English cotton trade showed genuine alarm in consequence of the steady noward movement in prices on this side of the water and the broadening tendency of speculative competition. Local sentiment also generally favored the idea that, notwithstanding the advance of 15c. already made in cotton since the advance set in, the general outlook remains as bullish as ever, especially in view of the small receipts, reports of backward plantation work and the small purchases of fertilizers. Weather in the South was generally against field work, being very cold, according to to-day's weather map. The fact that the Liverpool stock of cotton shows a gain of nearly 100,000 hales for the week made no particular impression here in view of the apparent decrease of \$5,000 bales in the amount aftent.

The feature of the cables was the indication of a strong demand from English and Continental spinners. The market closed steady at a net advance opened steady at the advance.
